To Whom It May Concern:

I want to voice my comment on case 02-278 regarding the CBA's petition against the state of Indiana's telephone privacy laws. I strongly support the law and feel that the public does not want the unsolicited calls from businesses during our personal time with our families. If we want to do business with these banks or any other business, we will call them during business hours. It is my request that you deny their petition.

Sincerely,
Jay A. Feldman
